

Desert Outdoor Center at Lake Pleasant

This environmental education center was designed to accommodate a wide range of programs and activities. With classrooms, wet lab, animal exhibits, gardens, hiking trails, the center has been described as “an educators dream”. The facility also includes a resource room, a lecture room, kitchen, a large multi-purpose room, amphitheater, and dormitories which can sleep over 150 people. The Center is a resource for limitless learning and research. Over 30 environmental classes are taught to over 20,000 visitors annually. We host half-day, full-day, and overnight programs.

Staff also participates in outreach programs, teaching children and the general public about our environment at various events.
